KEEP OUT OF REACH OF CHILDREN

WARNING!!! Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat and/or skin. Avoid contact with eyes, skin and clothing. If swallowed, induce vomiting by sticking finger down the throat. Never give anything by mouth to an unconscious person. If in eyes, wash with plenty of clear water for at least 15 minutes. Get medical attention.

Stand™

CALCIUM-NITROGEN SOLUTION

GENERAL INFORMATION

STAND contains both Nitrogen and Calcium in a combined form. It is intended for early seedling establishment and as a foliar nitrogen supplement.

STAND provides an excellent source of nitrogen needed during the seedling and vegetative stages of plant growth.

STAND contains calcium which increases the vigor and strength of cell walls in the roots. The calcium will also aid root uptake of ammonium nitrogen, magnesium, zinc, iron, manganese, copper and other cations to provide balanced nutrient levels.

APPLICATION INSTRUCTIONS

STAND can be used with soil applied fungicides. DO NOT mix with fertilizers containing phosphorus or Sulfur.

FOLIAR APPLICATION: Use 2L/ha of STAND diluted in 200 L of water or 160 ml in 16 L of water. Spray every 14 days after transplanting.
